winter weddings have started to increase in popularity over the last couple of years. this time of year offers a **romantic cosy setting** for your guests; an **indoor fire place** creates warmth and atmosphere, while hot-soup starters and carvery-style comfort food compliments the ambience. this romantic time of year also means bridegroom's and groom's are comfortable in their formal-wear; even after a long dance-floor session. there are **more available dates** in winter, so choose the weekend that suits you best without waiting till next year. the winter special includes **discounts on the venue hire, waivered corkage fees on wines and champagne.** a reduction in the required minimum guests means a more affordable wedding of your dreams.

additonally our in-house dj, décor team and preffered service providers offer winter specials.
